4	Direction and distance from the current location.
5	Intersection where traffic event starts.
6	Intersection where traffic event ends.
7	Total distance of traffic event.
8	Check the previous traffic information (Enabled only when there are two or more events on the On Route)
9	Check the next traffic information (Enabled only when there are two or more events on the On Route)
10	Detour the route based on the traffic information.

Traffic detour

Select the  button on the bottom left of the screen ► Select the **Traffic** button.

If there is traffic information on the route, it is possible to detour the route using traffic information and search other routes.

When the **Detour** button is enabled in the View Traffic Detail, press the **Detour** button to detour.

Select the desired section.

Check the information and press the **Detour** button.

Select the **Start Guidance** button to apply the detoured sections and search other routes.

Save

Select the  button on the bottom left of the screen ► Select the **Save**.

To store the location on the current map to the address book.

Name	Description
1	Change the name.
2	Enter the phone number.
3	Press Icon&Name , Icon or None to display on the map screen.
4	Designate to the Favorite item. When the favorite is designated, press the button on the bottom of the Destination menu and request the route guide immediately.
5	Save the setting.

Destination Search

Places

You can enter POI Name, Address or Coordinates that you wish to search by.

Press the **NAV** head unit key. ► Select the **Destination** tab. ► Select the **Place or Address** Search Bar.

Enter the POI Name, Address and Coordinates of the location you want in the input window above, and press the **OK** button.

If you select a location from the search result list, it will bring you to the point.

If you press the **Filter by City** button on the search result screen, it will bring you to the City search screen where you can filter the search results by city names.

Once the destination has been identified either by POI name, address, or coordinates, the map screen will be displayed. From this screen you can set the destination or add a waypoint, or add the displayed destination to your address book.

If you press the **Filter by Category** button from the search result screen, it will bring you to the POI Categories screen where you can filter the search results by POI Categories.
