# My Music Mode

Basic Mode Screen

| Name	Description
1 Mode	Displays currently operating mode
2 File	Displays the name of the current file
3 Repeat/Shuffle/ Scan	From Repeat/Shuffle/Scan, displays the currently operating function
4 File Index	Shows the current file/total files within the My Music
5 Play Time	Displays the current play time/total play time
6 Repeat	Repeats the current file
7 Shuffle	Plays files in random order
8 Scan	Scans the beginning parts of files (approx. 10 seconds per file)
9 Info Off (Info On)	Changes the display method between Info Off/Info On • Info Off : shows file name • Info On : shows file name, title, artist, and album info
10 Menu	Displays Repeat, Shuffle, Scan and Info On (Info Off) menus
11 Title Info	Displays the song title (Not displayed when information is not available)
12 Artist Info	Displays the artist information (Not displayed when information is not available)
13 Album Info	Displays the album information (Not displayed when information is not available)
14 Previous File	• When the play time is under 2 seconds : Moves to the previous file • When the play time is over 2 seconds : Plays the current file from the beginning
15 Play/Pause	Plays/pauses the current file
16 Next File	Moves to the next file
17 List	Moves to the list screen

Starting Mode

Press the ⬛ MEDIA key ▶ Press
🔵 My Music .

Playing My Music
- Press the ▶ button to play the file.
- Press the ‖ button to pause the file.

Selecting My Music

While playing ▶ Press the < , >
buttons or the ˅ SEEK TRACK ˄ key to play the
previous/next file.

- Pressing and holding the ˅ SEEK TRACK ˄ key
  (over 0.8 seconds) will rewind or fast-
  forward the current file.
- While the ˅ SEEK TRACK ˄ key is being pressed,
  the track will rewind or fast-forward at
  high speeds. Once the key is released,
  the Music will begin playing at normal
 speed.

My Music Mode

ℹ Information

- The `<` , `>` buttons displayed on the screen allow you to select the previous/ next file.
- These buttons will not rewind or fast-forward the file.

Using the Menu Buttons

Press the [Menu] button to set the Repeat, Shuffle, Scan, Info On (Info Off) menus.

Repeat

Press the [Menu] button ▶ Press [Repeat] .

The currently playing file is repeated.

ℹ Information

- Press the [Repeat] button again to turn off repeat. If nothing is selected, then all files will be played in sequential order.

Shuffle

Press the [Menu] button ▶ Press [Shuffle] .

When turned on, files are played in random order.

ℹ Information

- Press the [Shuffle] button again to turn the shuffle option off.

Scan

Press the [Menu] button ▶ Press [Scan] .

The beginning (approx 10 seconds) of all files are scanned.

ℹ Information

- Press the [Scan] button again to turn the scan option off.

Info On/Info Off

Press the ⊞ Menu button ▶ Press
🖹 Info On .

The screen display can be set differently
depending on user selection.
When the title, artist, and album info are dis-
played, the button is changed to 🖹 Info Off .
Press 🖹 Info Off to restore the previous
information display setting.

ℹ **Information**

· The title, artist and album info are dis-
  played only when such information is
 recorded within the MP3 file ID3 tag.

Using Menus within the List Screen

Moving between Lists
Press the 🖹 List button ▶ Press ▲ , ▼ .

If six (6) or more files or folders exist in
the same folder, the list will be displayed
across two or more pages.
Press the ▲ , ▼ cursor buttons to
quickly find the desired page.

My Music Mode

Returning to Current Location

While searching files within other folders, press the Now Playing button to return to the currently playing file screen.

Deleting Files

Press the ☰ List button ▶ Select the files to delete ▶ Press Delete Items .

CAR AVN SYSTEM

Before Use

⚠ Precautions for Safe Driving

Please observe and comply with local traffic rules and regulations.

◪ For your safety, some features cannot be operated while driving for your safety. Features that cannot be operated will be disabled.

◪ The route displayed for destination guidance is a reference and the route guidance will take you to the vicinity of your destination. The highlighted route is not always; the shortest distance, the least congested, and in some cases might, not be the fastest route.

◪ Road, name, and POI information may not always been completely updated. Some places may not include up to date information.

◪ The car position mark does not always indicate your exact location. This system uses GPS information, various sensors, and road map data to display the current position. However, errors in displaying your location may occur if the satellite is transmitting inaccurate signals or two or less satellite signals are being received. Errors that occur in such conditions cannot be corrected.

◪ The position of the vehicle within the navigation may differ from your actual location depending on various reasons, including the satellite transmission state, vehicle state (driving location and conditions), etc. Additionally, the car position mark may differ from the actual position if the map data is different from the actual road landscape, such as changes due to the construction of new roads. If such differences occur, driving for a short period of time will automatically correct the position of the vehicle through map matching or GPS information. (several minutes may be necessary in certain cases)

Operating the Navigation

▶ The navigation can be operated via touch. Touch the corresponding button on the screen to operate.

▶ If the button does not respond, take your finger off the screen and try again.

▶ When a button function is operating, the color of the selected button will be displayed differently.

▶ To return to the previous screen, press the [↰] button.

▶ Press the [↰] button to cancel functions that can be operated on the current screen.
(Some functions may not be cancelled.)

i **Information**

· Buttons that cannot be operated will be disabled.

Before Use

About the Map

Some roads, site names, and facility infor-
mation may have changed after map data
update and may differ with actual road
conditions.

About Map Scale

- If [0.25mi] is displayed on the left side of
  the map, this represents a map scale of
  1/4 of a mile.
- For more information on Changing Map
  Scale, refer to the 'Changing Map
  Scale' section.

	Actual Distance	
Level	mi/ft	km / m
1	150ft	50m
2	300ft	100 m
3	700 ft	200 m
4	0.25 mi	400 m
5	0.5 mi	800 m
6	1 mi	1.6 km
7	2 mi	3.2 km
8	4 mi	6.4 km
9	8 mi	12 km
10	16 mi	25 km
11	32 mi	50km
12	64 mi	100 km
13	130 mi	200 km
14	250 mi	400 km

About Map Icons

Icons displayed on the map may differ
from actual conditions. Multiple icons may
also be displayed as one mark.

About Map Database

Unlicensed map copying in any form, in full
or in part, is strictly prohibited.

About Map Updates

- Map updates can be downloaded
  from the designated website
  (http://www.mapnsoft.com) and updated
  through the SD card.
- For more information, refer to the
  'System Update' section in Setup.

About Voice Guidance

During destination guidance, voice guidance will be provided when reaching an intersection or nearby the destination.

Voice Guidance

Voice guidance is provided in the following instances.

Example of voice guidance during destination guidance

· In front of an intersection :

In a half mile, turn right.
After a moment, turn right

· Upon entering a toll road

You must turn right in a moment.
You are reaching an expressway.
There is a toll gate ahead.

* Please use voice guidance only as a reference to assist in your driving.

Example of voice guidance when arriving at the destination

· In front of the destination :

You have arrived at your destination. Voice guidance will be ended.

Information

· The above voice guidance examples are normal cases. However, the actual voice guidance may differ depending on the road type.
· If the car position is not accurately measured, then voice guidance may not be given, or may be given later or improperly.
· It is possible to adjust the Navigation guidance volume.

Guidance when using other modes

· Voice guidance will continue even when converting from the navigation screen to a different mode screen.

Information

· With voice guidance muted, destination guidance will continued to be provided.

Before Use

Before Use

About GPS

GPS (Global Positioning System) :
GPS is a system developed and operated by the United States which determines the current location of the user (Longitude/ Latitude, Coordinates, etc.) by generally using 4 or more satellites. This system is used with related GPS information, various sensors, road map data, and other related information for the purposes of navigation. For more information on GPS, refer to Part 6 'GPS Information'.

Starting Navigation

Map Screen

Name	Description
1 Map Style	Used to set either North up Always or Heading up on both sides of split screen map
2 Map Scale	Shows current map scale
3 Navigation Guidance Volume	Used to adjust navigation guidance volume
4 Function/Info Window	Shows map function buttons or current position info
5 Current Position Info Window	Shows current road name and destination name in 5 second intervals
6 Route Guidance Mode	Switches route guidance mode between preliminary guidance mode, Highway mode, and Turn by turn mode
7 Quick Menu	Allows users to easily and quickly access desired menus
8 Current Time	Shows the time
9 ETA/Remaining Time	Shows the ETA (Estimated time of arrival), remaining time and distance from current position to the destination
10 Preliminary Guidance	Provides distance, direction guidance at turn points and directions within the set route
11 Destination Direction	Shows straight line distance to destination from current car position mark
12 Lane Info	Shows recommended lanes for use by considering upcoming intersections and expected routes
13 Car Position Mark	Displays current car position

Starting Navigation

Initial Screen
Press the Agree button to display the most recently used mode.

If Audio mode is used with the navigation turned on, navigation guidance will be provided in the background. If you turn the ignition on, then the most recently played mode will restart.

ⓘ Information

- Once the vehicle ignition is turned on, the User Warning screen will always be displayed. Make sure to carefully read the warning page as it contains important information related to system operations while driving.

Current Position

Press the MAP VOICE key or the ⓐ button displayed at the upper right side in some map conditions to display the map of the current position and the neighboring area.

ⓘ Information

- When riding in a new car or after replacing the battery terminal, the car position mark may at first appear at a different location.
- Even if the car position mark on the map is different, map matching and GPS coordinates are utilized to automatically update the current position. It may take up to several minutes to find your current position.

Map Display Settings

Press the MAP VOICE key ▶ Press the ⊜ .

This button is used to set map screen related options, such as Split screen, Heading-Up/North Up, and Left/Right screen display.

Name	Description
1 Split Screen/ Single Screen	Select between Split Screen or Single Screen Map
2 Heading-Up/ North-Up	Display Map in Vehicle Traveling Direction (Heading-Up) or North-Up direction

ⓘ Information ────────────

· The Heading-Up/North-Up, 2D, and map scale adjustments can be used when using Split Screen map.

Changing Map Scale

Press the [MAP VOICE] key ▶ Press [0.25mi]
▶ Set the desired map scale.
Press the [0.25mi] button to display the map scale menu and change the map to the desired scale.

Name	Description
1 Adjust Map Scale	Use the [+] / [-] buttons to display the scale bar
2 Administrative District Scale	Shows map scales in categories of Detail (300ft), Near (0.25mi), Street (1mi), City (4mi), State (16mi)
3 Auto Scale	When [Auto] is enabled, map scale automatically adjusts according to driving situation

ⓘ Information ────────────

· The [-] will be disabled when set to max scale (1/250mi) and the [+] button will be disabled when set to min scale (1/150ft).

Starting Navigation

Map Menu

Press the > button ▶ Press Menu button.

Features frequently used within the map screen, such as Set as Destination , Add Waypoint , View Destination , Cancel Route , Call , and Details are displayed.

🛈 Information

- If the screen is scrolled, then the top menu is changed to the Set as Destination button.
- If you have already set a destination, then the top button will change to the Recalculate button.

Adjusting Navigation Volume

Press the (◉) button ▶ Adjust volume.

Press the (◉) button. The volume menu is displayed and allows you to adjust the navigation voice guidance volume.

The volume can be adjusted from 0~45 through the + / - button.

Press the ⏸ Mute button to turn off the sound.

POI Display

Press the > button ▶ Press POI .

When POI menus are displayed, pressing one of the 6 POI icon buttons will display the corresponding POI icons.

Name	Description
1 POI Icon	Shows/hides corresponding POIs
2 Unmark All	Unmarks selected POI Icons
3 Edit POI Icon	Edit the 6 POI icons shown within the menu
4 Search by Local POI	Searches selected POI

Editing POI Icons

Press POI ▶ Press the Edit POI Icon button ▶ Press Done .
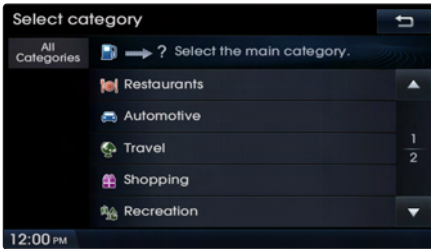

Press the Edit POI Icon button to select the desired facility from the various facility types.

Up to six favorite facilities can be set.

Press the Default button to reset the displayed POI icons.

Initially, Gas Station, Parking, Fast Food, Hospital, Auto Service, and Bank are set as default.

Searching POIs

Press the Search by local POI button ▶ Press the search criteria (Near current position , Near scroll mark , or Near destination).
Starting Navigation

Name	Description
1 Near Current Position	Within the 'Search by POI' menu, searches facilities based on the current vehicle position
2 Near Scroll Mark	Within the 'Search by POI' menu, searches facilities based on the current scrolled position
3 Near Destination	Within the 'Search by POI' menu, searches facilities based on the location of the destination

The POI mark is displayed according to the selected criteria.

ⓘ Information

- When searching POIs, you can only search POIs within selected categories.
- The `Near scroll mark` menu is enabled only when the map has been scrolled.

Adding a My Place

Press the [icon] button ▶ Press the desired group.

This feature is used to save the current position or the scrolled position as a My Place or Speed Alert.

ⓘ Information

- My Places are saved without distinction for the driving or scrolled state.
- The `Speed Alert` button is displayed when a point is saved with the speed limit of the road while driving on the road.

Using the Navigation

Destination Search

Press the DEST key to display the Destination Search menu screen.

The Destination Search screen includes various search menus as well as shortcuts to Favorites that provide maximum convenience in searching for destinations.

Name	Description
1 Point of Interest	Used to search for neighboring POIs near current position/near scroll position/near destination/near city center
2 Previous Destinations	Used for route guidance to recently set destinations
3 Previous Searches	Used for route guidance to recently searched locations
4 Previous Start Points	Used for route guidance to recent start positions
5 Address	Used to search destinations by selecting specific states/cities/roads
6 My Places	Displays list of saved My Places
7 Intersection Search	Used to search destinations by selecting street intersections
8 Map	Moves to the map screen
9 Emergency	Used to make emergency related searches
10 Coordinates	Used to search destinations by entering the Lat/Long coordinates
11 Phone Number	Used to search destinations by entering POI phone numbers
12 Exit/Entrance	Used to search destinations by searching for expressway exits/entrances

Using the Navigation

Quick Menu

Press the ★ button on the left side of the map screen to display the Quick Menu.

Name	Description
1 Quick Menu (★)	Display/hide Quick Menus
2 Quick Menu Bar	Menus added to the Quick Menu (possible to set up to 6 menus)
3 Edit	Add/Delete Quick Menus
4 Current Quick Menus	Shows list of current Quick Menus
5 Add/Remove	Add or remove Quick Menus
6 Quick Menu Categories	List of categories that can be added to Quick Menus

Point of Interest (POI) Search

Press the DEST key ▶ Press Point of Interest .
Name	Description
1 Category	Search for POIs by selecting through POI categories
2 ZAGAT Restaurant Guide	Search for ZAGAT restaurant guide POIs from among POIs within the vicinity
3 Name	Search POIs by name
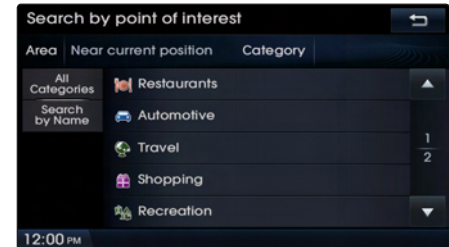

POI Search is a feature that allows you to search for POIs that are near your current position, near a scroll mark, near the destination, or near the city center.

Categories are sub-categorized and the selected area and category are displayed at the top of the screen for user convenience.

Name	Description
1 Near Current Position	Searches POIs based on the current vehicle position
2 Near Scroll Mark	Searches POIs based on the current map scroll position
3 Near Destination	Searches POIs nearby the set destination (feature is disabled when a destination has not been set)
4 Near City Center	Searches POIs nearby a selected area

ⓘ Information

• The searched location may not be the exact location of a specific destination, but displays a representative position of a POI address.
• The ZAGAT Restaurant guide list is a rating system categorized into 0~9 Poor to fair, 10~15 Fair to good , 16~19 Good to very good , 20~25 Very good to excellent, 26~30 Extraordinary to perfection.
• Each category is sorted starting with highest ratings down to the lowest ratings.

Previous Destinations, Previous Searches, and Previous Start Points

Press the DEST key ▶ Press
🗺 Previous Destinations .
Press the DEST key ▶ Press
🔍 Previous Searches .
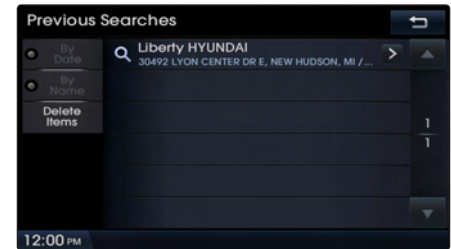

Using the Navigation

Press the DEST key ▶ Press
🔵 Previous Start Points .

These search features allow you to search previous routes, previous searches and start points.

Name	Description
1 By Date	Sorts POIs and locations by added date
2 By Name	Sorts POIs and locations by name
3 Delete Items	From various entries, items can be selected and deleted all at once

ⓘ Information

- If the POI or region name is too long and cannot be displayed within one screen, pressing the > button will move the name to the left to display the full name.

Address

Press the DEST key ▶ Press
🔵 Address .
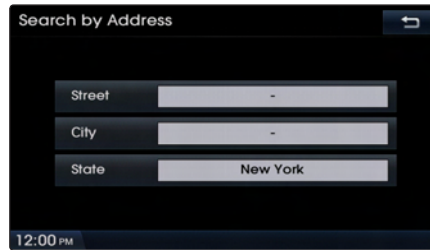

This search feature is used to search destinations by addresses through state, city, and street.

Enter the name of the Street, City and State corresponding to the desired destination. Once search is complete, press the Search button to select the desired location from the list.

My Places

Press the DEST key ▶ Press
🔴 My places .
This search feature is used to search destinations by selecting previously saved My Places to set as destinations. My Places can be placed in groups, and group names can be edited within Setup.

Name	Description
1 By Date	Sort POIs and locations by date
2 By Name	Sort POIs and locations by name
3 By Symbol	Sort POIs and locations by symbol

ⓘ **Information** ─────────────────

• If the POI or region name is too long and cannot be displayed within one screen, pressing the > button will move the name to the left.

• It is possible to save up to 100 My Places per Group.

Intersection Search

Press the DEST key ▶ Press
🔍 Intersection Search .

This search feature is used to search destinations by street intersections throughout the map.

Enter the name of the Street, City and State corresponding to the desired destination. Once search is complete, press the Search button to select the desired location from the list.

Map

Press the DEST key ▶ Press 🗺 Map .

The map screen can be scrolled to display other positions where you can set destinations.

Using the Navigation

Name	Description
1 Set as Destination	Sets the POI or region where the cursor is positioned as the new destination
2 Add Waypoint	Sets the POI or region where the cursor is positioned as a waypoint
3 View Destination	Displays information for the set destination
4 Cancel Route	Cancels the currently set route
5 Call	Calls the selected POI facility
6 Details	Displays details for the selected POI facility with ZAGAT information

Emergency

Press the **DEST** key ▶ Press **Emergency** .

This search feature is used to search for police stations, hospitals, and dealerships in emergency situations.

Name	Description
1 Police Station	Displays list of Police Stations closest to the current position
2 Hospital	Displays list of Hospitals closest to the current position
3 Dealership	Displays list of Hyundai Motor Dealerships closest to the current position

Coordinates

Press the **DEST** key ▶ Press **Coordinates** .
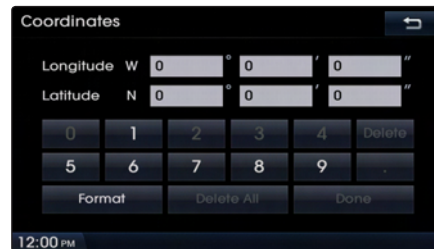

This search feature is used to search destinations by entering coordinates. Two coordinate entry formats are supported. Select the desired format upon starting search.

Phone Number Search

Press the **DEST** key ▶ Press **Phone Number Search** .

This search feature is used to search the locations of POIs by entering the phone number of the desired POI destination.

· Area codes must be entered to complete the search.

ℹ️ Information

・ The phone number and location may differ for some POIs. In addition, the following types of facilities may be more frequently located in other locations.

・ Locations of department stores, museums, and amusement parks may somewhat differ from the set destination. Check the exact address when trying to reach such destinations.

・ Within general information newspapers, there are cases when phone numbers of concert halls actually list the numbers of management companies. In such cases, destination searches will be made to the management companies.

・ The telephone number and addresses may change at any time.

Exit/Entrance

Press the DEST key ▶ Press 🚏 Exit/Entrance .
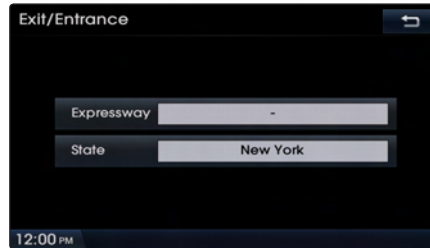

This search feature is used to search destinations by entering the Exits and Entrances of corresponding expressways. Enter the name of the Freeway corresponding to the desired destination. Once search is complete, press the Search button to select the desired location from the list.

Setting a Destination

Press the DEST key ▶ Search for the Destination ▶ Press Set as Destination .

Using the Navigation

Using the Navigation

(Alternative Route)

(Route Overview)

- To conduct a destination search through the desired search method, select the desired destination from the list. (For more information on destination search methods, refer to the 'Destination Search' section.)
- After verifying the location of the searched destination, press the Set as Destination button to calculate the route. The Route Overview or Alternative Route screen will be the displayed.
- Press the Add Waypoint button to add a waypoint destination.
- Within the Route Overview or Alternative Route screen, press the MAP VOICE key or the Start Guidance button to start route guidance.

ⓘ **Information**

- If you press the Set as Destination button while a previous destination has already been set, the pop-up 'Do you want to change the destination?' will be displayed.
- If you press Yes , then the previous destination is deleted and the new destination will be set. Pressing the Add Waypoint button will add a waypoint destination.

One Touch Scroll Setting

The destination can be set to the current map display.

- Within the map screen, touching a position on the map will move the map to the center of the selected position and display the scroll mark.
- Press the Menu button to set the selected position as a waypoint or destination.

Route Calculation
- Once you have set a destination, calcu-late the route. The route overview and route option menus will be displayed.
- After checking the Route Overview, press the [MAP VOICE] key or the [Start Guidance] button or just drive for over 3 mph or for approximately 5 seconds to start guid-ance.

ⓘ Information

- To learn more about 'Alternative Route', 'Route Overview', or 'Detailed Route Settings' refer to the 'Route Menu' section.

Demo

After a route has been calculated, press the [Demo] button to begin simulated driving of the calculated route.

- Within the Route Overview screen, press the [Demo] button.
- During Demo, press the [MAP VOICE] key to end the demo and display the current map position. If you start driving while viewing the route demo, demo will end and route guidance will start.

ⓘ Information

- Demo will not operate after starting route guidance. To use the Demo feature, use after route calculation but prior to starting route guidance.
- During Demo the "Fast/Normal/Auto" menus are displayed and it is possible to adjust the demo speed.

Using the Navigation

Add Waypoint

After searching for waypoints, press the
Add Waypoint button to add the way-
point to the current route.

Route Recalculation
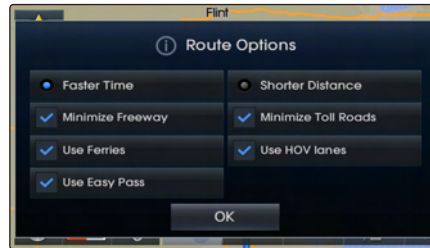

Once a route has been set, the Recalculate
button is displayed at the top of the menus.
Pressing the Recalculate button will dis-
play a pop-up that allows you to change route
options. Once the settings are changed,
the route is recalculated by reflecting the
changes.

ⓘ Information

· For more information on Faster Time,
Shorter Distance, and other route calcula-
tion options, refer to the route calculation
section.

Cancel Route

In the Map menu screen, press the
Cancel Route button.

ⓘ Information

· You can cancel the route by pressing
the Cancel Route button that is dis-
played after pressing the Menu button.

Route Guidance

Preliminary guidance, highway mode, turn list guidance, and other guidance screens are displayed according to the current road condition.

Within the guidance map screen, if the current position is on route, then intersection guidance will be provided once you are nearby an intersection.

Also, the intersection zoom screen is displayed when nearby an intersection.

ℹ **Information**

• Within all guidance mode screens, pressing the button at the bottom right side of the screen will change the route guidance mode.

• Each time the button is pressed, the guidance mode will change in order of preliminary guidance → turn list → highway guidance mode. (The icon within the button indicates the mode that will be displayed upon next press.)

• Highway and intersection zoom guidance are displayed during guidance at corresponding roads.

Preliminary Guidance Mode

At the top right side of the screen, the next/after next turn info, remaining distance, direction, and other information are displayed.

Using the Navigation

Intersection Zoom Mode
This mode provides detailed guidance nearby intersections before the next turn. This mode is displayed starting from 300m before the intersection.

Highway Mode

Upon entering a highway during route guidance, the highway mode will automatically be displayed. This mode is displayed when driving on a highway and mainly displays highway related POIs.

You can check information for various POIs by using the View All , Summary , and Rest Area buttons.

Name	Description
1 View All	Guidance for all POIs on the highway
2 Summary	Shows list of turn points and other directional route guidance while driving within highway
3 Rest Area	Guidance for only the rest areas on the highway

When scrolling through POIs by using the ▼ , ▲ buttons, pressing the ⏱ button will select the POI closest to the current position.

Information

- When there are more than four POI marks that can be listed, some POIs may be omitted and not displayed.

Turn List Mode

Turn List Mode shows turn information on the current route.

Route Menu

Press the ROUTE key to use, edit, or optimize various route options.

Name	Description
1 Cancel Route	Cancels the currently set route
2 Route Overview	Shows the route overview to the set destination
3 Route Info	Shows detailed info for the current route
4 Route Option	Route calculation settings with various options for calculating a route
5 Detour	Used to select and edit detour road/streets
6 Avoid Streets	Used to edit the route by avoiding streets
7 Edit Route	Used to add/delete/change the order of destinations/waypoints
8 Avoid Area	Used to edit route by adding Avoid Areas/Editing Avoid Areas and Deleting Avoid Areas

Using the Navigation

Cancel Route

Press the ⟨ ROUTE ⟩ key ▶ Press
[🚫 Cancel Route] .

Route Overview

Press the ⟨ ROUTE ⟩ key ▶ Press
[📍 Route Overview] .

Name	Description
1 Start Guidance	Starts guidance to the set Route/Displays the current vehicle position
2 Edit Route	Used to add/delete/change order of destinations/ way-points
3 Route Info	Shows route info to the set destination
4 Alternative Route	Displays various alternative route options for route calculation
5 Demo	Starts demo to the set destination

Within the Route Overview screen, press the [Alternative Route] button to display other potential routes to the set destination. From the alternative route options, select the desired route.

Name	Description
1 Faster Time	Faster time route that reflects distance and traffic conditions
2 Shorter Distance	The shortest distance from start point to the destination

ⓘ **Information**

・ Even if the "Use Alternative Route Search" option is turned on, the Route Overview screen (not the Alternative Route screen) when calculating routes that include way-points.

Route Info

Press the ROUTE key ▶ Press
🚗 Route Info .

Route Info

↑ 3.6 mi		
S Grove St	MAP	
↑ 3.0 mi		1
N Prospect Rd	MAP	4
↑ 1.0 mi		
7070 Geddes Rd, Ypsilanti, MI	MAP	

12:00 PM

The turn points and distance information by key roads within the set route are displayed. Press the MAP button next to each road name to display the map position for the corresponding location.

Route Option

Press the ROUTE key ▶ Press
📋 Route Option ▶ Set and press Done .

Detailed Route Settings

Done	1 Faster Time	2 Shorter Distance
	3 Minimize Freeway	4 Minimize Toll Roads
	5 Use Ferries	6 Use HOV lanes
	7 Use Easy Pass	

12:00 PM

Route Options refer to conditions used to calculate the route to the destination. The route is automatically recalculated if the route options and detailed route settings are changed.

Name	Description
1 Faster Time	Faster time route that reflects distance and traffic conditions
2 Shorter Distance	The shortest distance from start point to the destination
3 Minimize Freeway	Route calculation with minimal use of highway
4 Minimize Toll Roads	Route calculation with minimal use of toll roads
5 Use Ferries	Route calculation by including use of ferries
6 Use HOV Lanes	Route calculation by including use of HOV lanes
7 Use Easy Pass	Route calculation by including use of Easy Pass

Using the Navigation

Detour

Press the ROUTE key ▶ Press Detour .
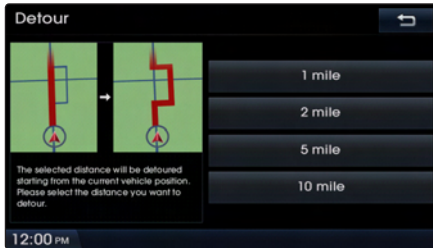

The Detour menu is used to redefine the route by setting a detour to a certain distance from the current position.

Avoid Streets

Press the ROUTE key ▶ Press Avoid Streets ▶ Select the streets you want to avoid and press Done .

This feature is used to select specific streets to avoid within the current route. Select Avoid to avoid the particular streets in the route overview that are desired to be avoided.

Edit Route

Press the ROUTE key ▶ Press Edit Route ▶ Set and press Done .
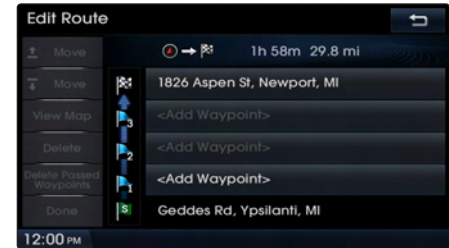

The Edit Route menu displays the start point, waypoints, and the destination in list format and is used to edit corresponding positions or the order of destinations within the route.

Avoid Area

Press the ROUTE key ▶ Press
Avoid Area ▶ Set and press Done .
This feature is used by creating a rectangle over the area to avoid.

An area set as an avoid area is excluded from the calculated route. If a route had been calculated prior to creating an avoid area, the route will automatically be recalculated.

The screen will prompt to select the first corner of the square of the avoid area, followed by the second corner.

Map Logos and Landmarks

Logo/Landmarks

These are landmark and logo icons that display facilities within 2D map mode. The size of the symbol may be displayed differently according to the map scale. Symbols may change without prior notice during map updates. Symbols shown within the manual represent a portion of all symbols and shou as a reference.

・Using *Bluetooth®* Wireless Technology

CAR AVN SYSTEM

Before Use

Before Using the Bluetooth® Handsfree

What is *Bluetooth®* Wireless Technology?

⬃ *Bluetooth®* Wireless Technology refers to a short-distance wireless networking technology which uses a 2.45GHz frequency to connect various devices within a certain distance.

⬃ Supported within PCs, external devices, Bluetooth® phones, PDAs, various electronic devices, and automotive environments, *Bluetooth®* Wireless Technology to be transmitted at high speeds without having to use a connector cable.

⬃ Bluetooth® Handsfree refers to a device which allows the user to conveniently make phone calls with Bluetooth® mobile phones through the Navigation system.

⬃ The Bluetooth® Handsfree feature may not be supported in some mobile phones. For more information on mobile phone compatibility, visit the Hyundai Motor website. (http://www.hyundaiusa.com)

⚠ Precautions for Safe Driving

⬃ Bluetooth® Handsfree is a feature that enables drivers to practice safe driving. Connecting the head unit with a Bluetooth® phone allows the user to conveniently make calls, receive calls, and manage the phone book. Before using *Bluetooth®* Wireless Technology, carefully read the contents of this user's manual.

⬃ Excessive use or operations while driving may lead to negligent driving practices and be the cause of accidents. Do not operate the device excessively while driving.

⬃ Viewing the screen for prolonged periods of time is dangerous and may lead to accidents. When driving, view the screen only for short periods of time.

⚠ CAUTIONS upon Connecting Bluetooth® Phone

◪ Before connecting the head unit with the mobile phone, check to see that the mobile phone supports Bluetooth® features.

◪ Even if the phone supports *Bluetooth®* Wireless Technology, the phone will not be found during device searches if the phone has been set to hidden state or the Bluetooth® power is turned off. Disable the hidden state or turn on the Bluetooth® power prior to searching/connecting with the head unit.

◪ If Auto Connection is used, the Bluetooth® phone is automatically connected when the ignition is turned on, making it unnecessary to have to connect the phone with the head unit every time.

◪ If you do not want automatic connection with your Bluetooth® device, turn the Bluetooth® feature off of the Bluetooth® device.

◪ To set Auto Connection, go to `SETUP` ▶ `⑧ Bluetooth` ▶ `Auto Connections Settings` .

◪ The car name can be set at `SETUP` ▶ `⑧ Bluetooth` ▶ `Advanced Settings` ▶ `Device Information` .

◪ The passkey needed to connect the mobile phone can be verified/changed at `SETUP` ▶ `⑧ Bluetooth` ▶ `Advanced Settings` ▶ `Change Passkey` .

◪ If the Bluetooth® audio does not play, go to `SETUP` ▶ `⑧ Bluetooth` ▶ `Streaming Audio Setting` If the feature is set to `• Off` , turn `• On` and try again.

◪ Park the vehicle when connecting the head unit with the mobile phone.

◪ Bluetooth® connection may become intermittently disconnected in some mobile phones. Follow these steps to try again.
  1. Turn the Bluetooth® function within the mobile phone OFF/ON and try again.
  2. Turn the mobile phone power OFF/ON and try again.
  3. Completely remove the mobile phone battery, reboot, and then again.
  4. Reboot the Audio Navigation System and try again.
  5. Delete all paired devices, pair and try again.

◪ The handsfree call volume and quality may differ depending on the mobile phone.

◪ Pairing Bluetooth® devices and use of other Bluetooth® features are not supported when the vehicle is in motion. For safety, please first park your vehicle.
